

The Workshop

**February 25, 2020**

This workshop is geared to help organizations better understand their current value and position in the healthcare continuum. It will provide a clear understanding of why Value-Based Payment arrangements are important and can truly help your business and patients be more successful. You will learn how you can help create financial impact for Managed Care Organizations, Healthcare Systems, and how that can turn into positive growth for your business. All this while creating a high quality of care environment with more informed interventions for the members of your community.

### Agenda at a Glance

- 7: 30 AM Breakfast & Registration
- 8:00 AM Session 1 | VBP Readiness
- 9:45 AM Break & Discussion
- 10:00 AM Session 2 | Data & Technology
- 11:30 AM Focused QA & Discussion
- 12:00 PM Lunch & Closing Remarks

### Session 1 | VBP Readiness

Understanding how organizations can flourish in the new value environment is key in the move to value based payment. As health care continues to accelerate towards value-based arrangements, social care providers must ask themselves a series of key questions in order to decide their future path. This session will cover these key questions and provide the context for your organization’s next steps.

### Session 2 | Value of Data & Technology

As your organization begins to evaluate and then enter into the health care continuum you must be prepared for technology integration, data sharing, and effective reporting mechanisms. rprt will help you understand how to better utilize the technology you currently have, the data you already create, and potential new software. We will also discuss how to work with other organizations regarding data sharing and its key importance in driving effective interventions, improving decision making , and getting a full picture of your community
